THERE ARE so many dramatic and stirring episodes in today's Bible lesson, that we will have time only to touch on them lightly, which is a pity

At the beginning of this jour-

ney of the great missionary, Paul, he and his friend. Barnabas, who had worked so well together, had a disagreement. You remember Barnabas had a nephew, John Mark, who had been with them before, but left before their work was done. Paul suggested to Bar-nabas that they "go again and visit our brethren in every city Barnabas wanted to take John with them, but Paul did not want him, and the disagreement was "so sharp," St. Luke tells us, that the two comrades separated, Barnabas sailing to Cyprus with John, and Paul chocsing Silas to go with him to Syria and Cilicia, where

they "confirmed the churches." At Lystra there was a disciple whose mother was a Jew, but whose father was Greek, and Paul took this Timothy with him. The Holy Ghost directed their travels, and some places where they planned to stop the spirit forbade them. When they came to Tross, however, Paul had a vision. "There stood a man of Macedonia and prayed him, saying. Come into Macedonia, and help us."

Disciples Meet Lydia

In Philippi, chief city of that part of Macedonia, where apparently the Jews had no synagogue, they went to the river-side, the place of prayer, and preached and there they met a woman named Lydia, evidently a successful business woman, a seller of dyed materials, especially the expensive purple cloth. She and all her isehold were baptized and she asked them to come to stay with

Now in this city was a certain

damsel who by the possession of a certain spirit, worked magic and

made a good deal of money for her master and his companion. She followed Paul about, crying, "These men are the servants of the most high God, which show unto us the way of salvation." Paul stood it for some time, then fearing the wrong impression was of the woman. Her masters, real- | pent.

Early in the morning the magistrates sent word that Paul and Silas were to be freed. Paul. however, said they had been unjustly beaten and imprisoned, and as they were Roman citizens, the come down personally and free them-which they did.

Several times after this, in their journeyings, unbelieving a Jews tried to injure these two noble men and prevent them from preaching and converting, and always Paul escaped and went on. They were driven out of Thessalonia and went to Berea, where again Paul had to flee, but he left Silas and Timothy behind and went to Athens.

Athens was at that time the seat of learning in Greece, noted for its wisdom and the discourses of its philosophers. "Proclaim liberty throughout the land, to all the inhabitants thereof." That message encircles our Liberty Bell, cast in 1753, rung gloriously JULY 4th, 1776, when the Declaration of Independence was signed. Much had happened within the dark folds of those years. Every man became a soldier in freedom's army—men like Paul Revere, riding through the night to warn

Middlesex to rise in defense! When liberty was finally hard won, other realistic Americans went about moulding it to cloak our nation in freedom for all time. It was in 1787 that the first ten articles of the Constitution were fully framed: our Bill of Rights. We need only reread it to know in our hearts that no document more worth defending was ever evolved by men for the government of men. The fight for liberty carries on. But with our Bill of Rights to govern our action, and our Bell of Rights to keep liberty's gong ringing clear, we shall ever be the true heralds of freedom—as was that earlier hero about whom Longfellow unforget-tably wrote: "Through all our history, to the last, in the hour of darkness and peril and need, the people will awaken and listen to hear the hurrying hoof-beats of that steed, and the midnight message of Paul Revere."

McCusker said gasoline receipts for May were the largest for any one month in Maryland history. Collections for the first nine months this fiscal year are \$1,156,037 higher than the yield during a comparable period in 1940, he added. He reported that 31.866.714 gallons of gasoline were sold in Mary land last May, bringing in \$1,274,-668 in tax revenues. The previous month record was established in August, 1940, when \$1,186,595 was realized from the sale of 29,665,894 gallons of gas.

From October 5 to June 30, 1940. \$8.556.145 was collected from the gas tax, compared with \$9,712,183 which poured into the state treasury in the first nine months of this fiscal year.
